

# In Floor LED Channel, Universal Wide (IP65)

## AL-TRK-INFLR-W

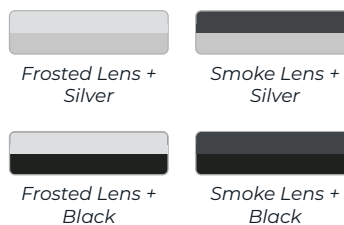

### DESCRIPTION

This Universal Wide In-Floor Channel accommodates strip lights up to 16mm wide, and is rated for indoor or outdoor use. Its extra-wide design can even fit two 8mm strips for enhanced brightness. Built from durable aluminum, it protects your strip lights, diffuses light evenly, and is strong enough to withstand foot traffic. Choose between a frosted or smoke lens to achieve your desired effect: the smoke lens reduces output for subtle accent lighting, while the frosted lens delivers bright, clean illumination ideal for task lighting.

This channel has a 7/8" visible lens and accommodates strip lights up to 16mm wide.

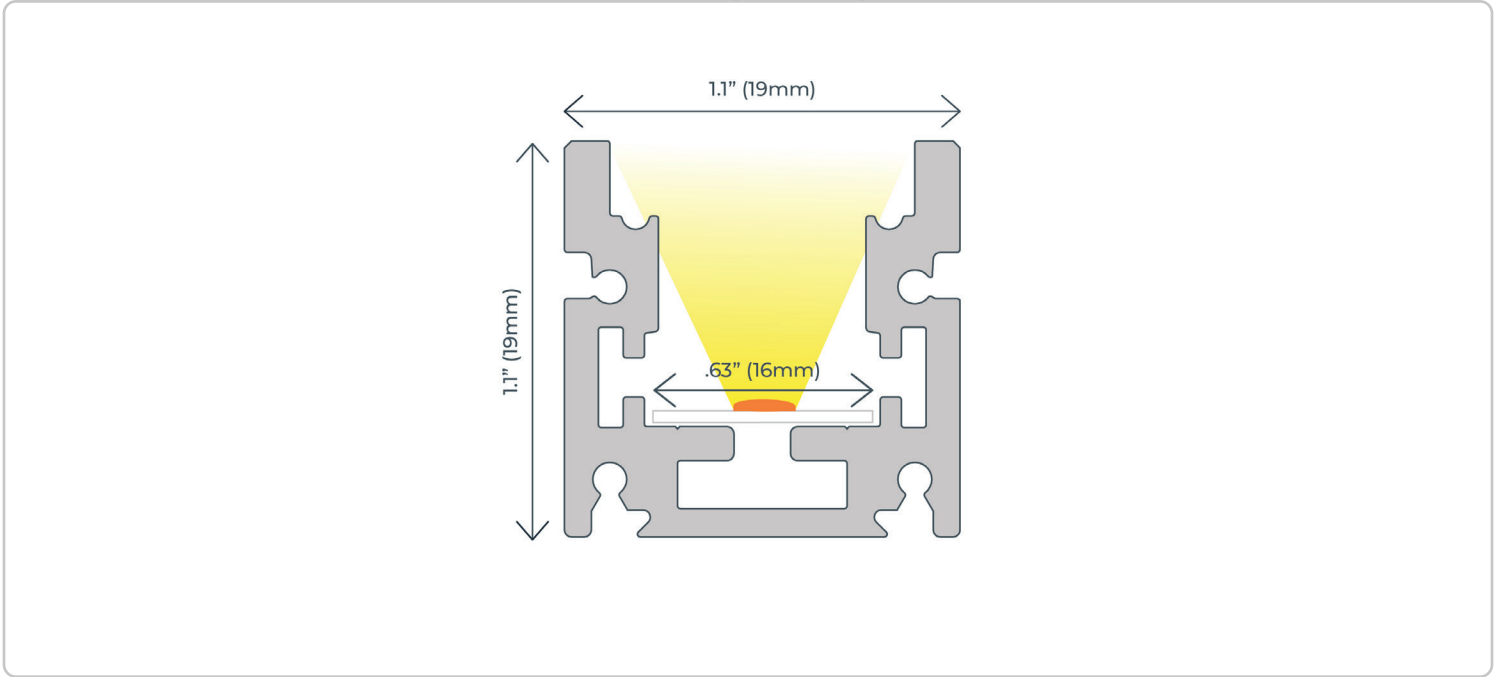

### COLOR VARIETIES
