

PENDANT/SURFACE MOUNT MULTI-DIRECTIONAL BAR LIGHT LINEAR CHANNEL

for LED Strip Light

MODEL: AL-TRK-LNR

Description

aspectLED's aluminum channel is designed to work specifically with our Flexible LED Strip Lights. These come in a variety of lengths and have a frosted lens cover. Light output can be increased by laying up to 4 runs of our N-Series narrow non-waterproof, or 3 runs of our W-Series (wide) strip lights, including connectors.

This linear channel emits light from 3 sides as opposed to 1 and can be mounted on a ceiling, wall, or virtually anywhere as architectural lighting for wall washing. It can also be hung from the ceiling and used as a pendant over bars, game rooms, pool tables, garages, or kitchen peninsulas and islands.
