

Micro LED Channel
AL-TRK-SM-M

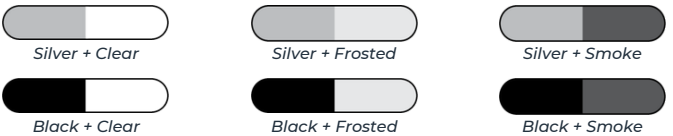

Compact Aluminum Channel

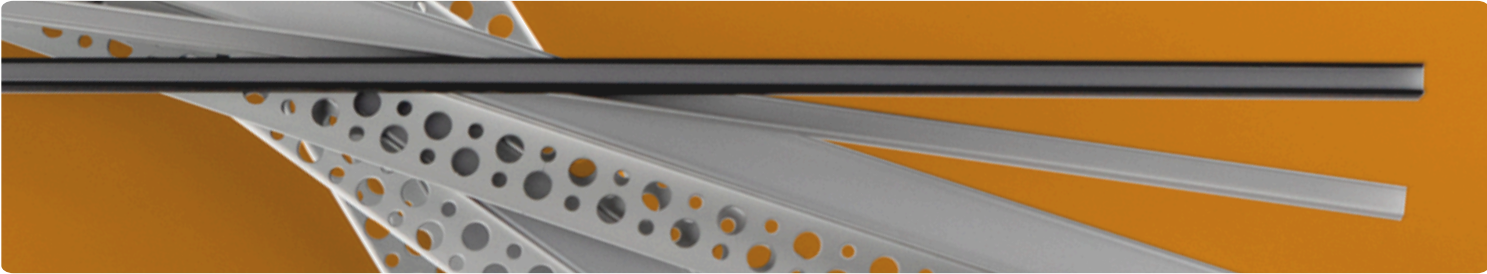

DESCRIPTION

At just 3mm wide, the Micro Series LED Strip Light is designed for applications where space is limited but bright, high-quality illumination is essential. Featuring high-density LEDs, this strip delivers smooth, uniform, dot-free light, making it ideal for visible-edge, accent, or task lighting without hotspots. With a 90+ CRI, it produces crisp, accurate color and natural white tones that enhance any space.

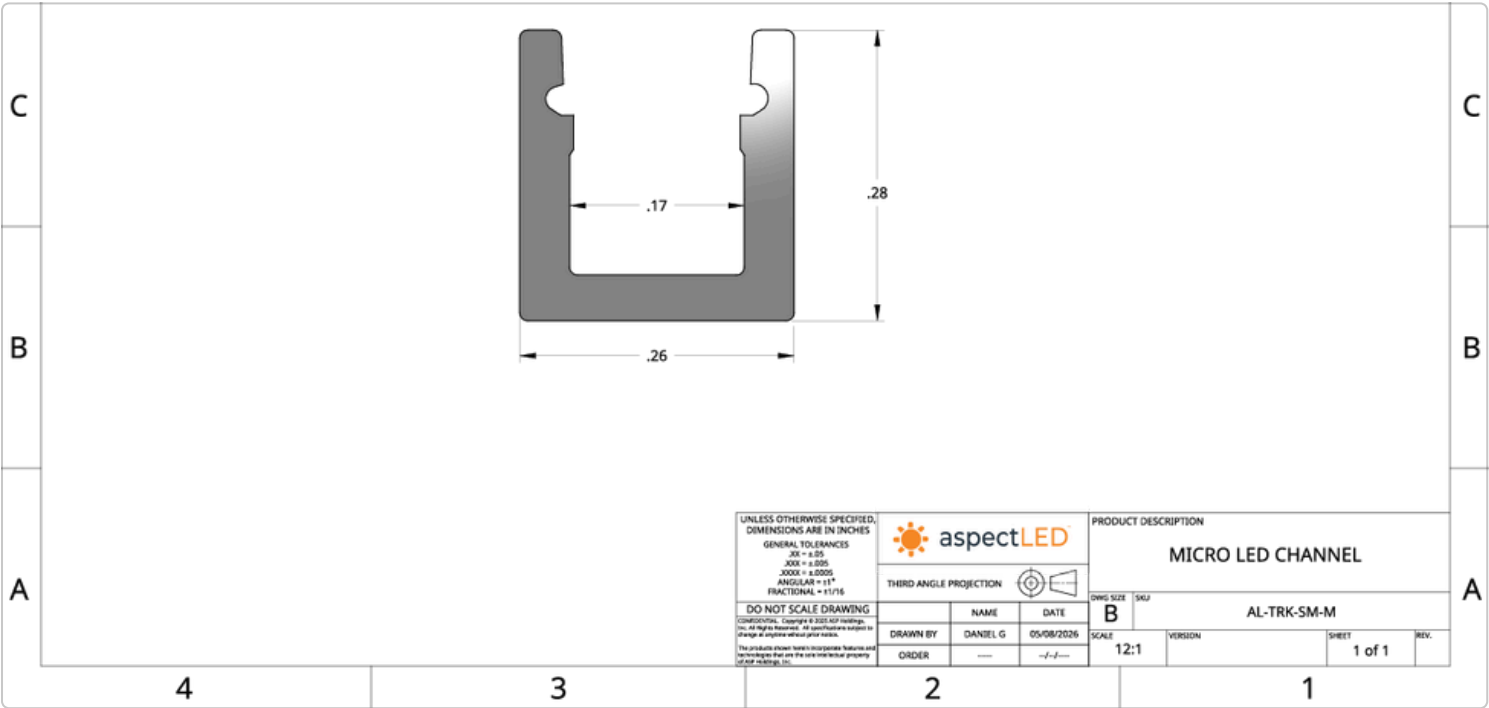

The ultra-slim profile allows for seamless installation in places traditional strip lights can't fit, including furniture, cabinetry, retail displays, and architectural details. The strip is cuttable every 0.49" (12.5mm), making it easy to customize for virtually any installation. Compatible with dimmable power supplies, brightness can be adjusted effortlessly to suit your environment.
