

GloTread Micro LED Channel

AL-TRK-TREAD1-M

DESCRIPTION

GloTread Channel is engineered to enhance stair safety and visibility. Made from durable aluminum, it protects strip lights, delivers even light diffusion, and is tough enough to withstand foot traffic. The included silicone lens creates a smooth, linear glow with minimal visible hot spots from the LEDs. With a low-profile height of just 0.87", it minimizes the risk of tripping hazards for foot traffic. This channel is compatible with aspectLED's X-Series Strip Lights or any strip light 4mm wide or less.

COLOR OPTIONS

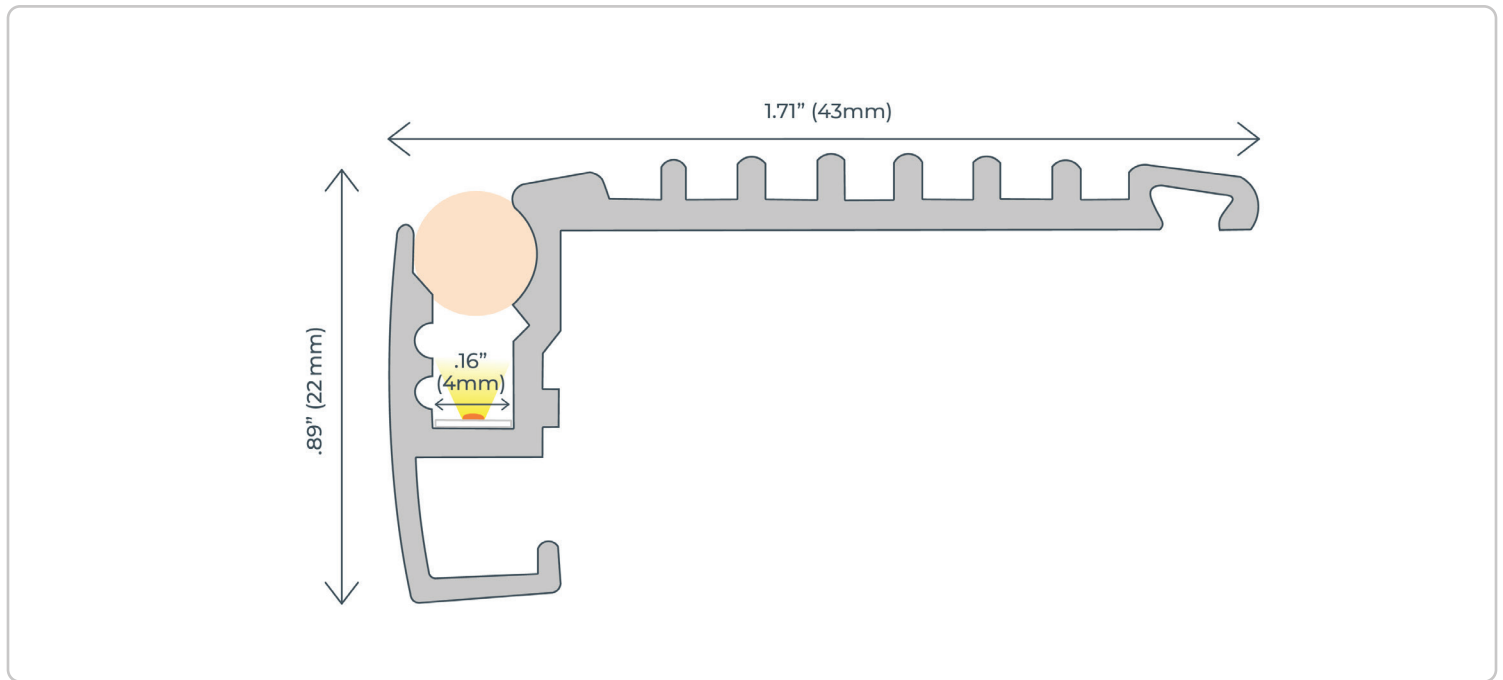

Silver

Black
