

Firefly Aura Bond RGB CCT Controller

AL-CTRL-FLY-1500

Lever-Action Color Changing Controller

DESCRIPTION

The Firefly Aura Bond RGB CCT Controller delivers precise, effortless control over your lighting's color, brightness, and dimming. Choose from 9 built in color presets to instantly set the desired mood, or fine tune every detail to your preference. Paired with the Bond Home app, the controller connects via Wi-Fi or Bluetooth, ensuring reliable operation even when a Wi-Fi connection is unavailable. Users can create custom schedules, group multiple lights, adjust settings remotely, and operate their lighting through voice commands for added convenience. Advanced PWM dimming technology ensures smooth, consistent color performance, while support for both 12VDC and 24VDC makes the controller compatible with a wide range of low voltage lighting applications.
