

# WIRELESS RGBW 4 CHANNEL LED CONTROLLER WITH CHANNEL PAIRING

**MODEL: AL-CTRL-RGBW-4CP**

## Description

This is the receiver/base unit for the following aspectLED controllers: AL-CTRL-DIM-4ZRF-RMT, AL-CTRL-DIM-4ZRF-WMT, AL-CTRL-RGBW-4ZRF-RMT, AL-CTRL-RGBW-3ZRF-WMT, AL-CTRL-CCT-4ZRF-RMT.

This unit is connected directly to your power supply (input) and LED strip lights (output) by low voltage wire, and communicates with your controller unit via a wireless (RF) signal. This LED controller is compatible with all of aspectLED's single color, dynamic white, RGB, and RGBW LED fixtures. Please note the receiver and controller units do not come paired, but it's easy to do. See pairing instructions on the controller page.
