

Dotless™ LED Strip Lights - Tunable White

AL-SL-LN-IP20-24-CCT

COB LED Strip Light

DESCRIPTION

Dotless™ Tunable White LED Strip Light gives you precise control over your lighting with an adjustable color temperature range from 2700K to 6500K, allowing you to dial in the perfect warm or cool white for any space. The continuous COB LED design provides smooth, even illumination with no visible diode points, eliminating the need for a diffusion lens.

Designed for visible installations, this strip light creates a clean, uninterrupted line of light and delivers 90+ CRI for accurate, natural color rendering. It is compatible with dimmable power supplies for full brightness control. With a flexible construction and a wide 180° beam angle, the strip easily conforms to a variety of layouts and contours, and its cuttable design every 1.03" (26.3mm) allows for precise, custom installations.
