

Summit LED Strip Light - Static White - 32ft

AL-SL-DL-CC-IP20-24-32

Single Color, Non-Waterproof, Long Max Run

DESCRIPTION

Summit Strip Lights are the ultimate choice for seamless accent lighting. Summit creates a clean, continuous line of light with no visible diodes and no diffusion lens required. Advanced CSP technology delivers smooth, even illumination while improving efficiency and long term reliability. With Integrated Chip (IC) technology, you can install continuous runs up to 32 feet without voltage drop, saving time, labor, and materials compared to traditional Constant Voltage strips.

Each cut section regulates its own current for uniform brightness from end to end. Featuring a 90+ CRI, these strip lights provide accurate color rendering and vibrant illumination. Available in four color temperatures, these strips offer a tailored solution for any space. Compatible with non-dimmable power supplies and DC decoders/remotes, installation and upgrades are quick and hassle-free.
