

# L-SERIES DOTLESS™ LINEAR LED STRIP LIGHT

MODEL: AL-SL-L-U

## Description

Introducing aspectLED's Dotless™ Linear LED Strip Lights. This continuous LED strip is the perfect solution for a wide variety of applications, especially for those installations where you don't want to see the individual diodes. Requiring no diffusing lens makes the L-Series installation even easier. Our L-Series Dotless LED strip lights are made with wire leads on both ends of each 16.4' reel and can be cut every .7" (12VDC) or 1.78" (24VDC), allowing you to cut pieces to the exact length that you need.
