

CoreLine LED Strip Light

AL-SL-NS-IP20-24

LED Strip Light

DESCRIPTION

The CoreLine LED Strip Light delivers dependable, energy-efficient illumination for everyday architectural and accent lighting applications. Designed for dry indoor installations, it combines excellent color quality, reliable performance, and flexible installation. Available in four white color temperatures ranging from warm 2700K to crisp 6000K, CoreLine makes it easy to create the right lighting environment for residential, commercial, retail, and display applications. The strip can be cut every 3.94 inches, allowing for custom lengths with minimal material waste. Producing up to 167 lumens per foot at an efficient 115 lumens per watt, CoreLine provides consistent illumination while minimizing energy consumption. With a high 90+ CRI and compatibility with constant voltage dimming systems, it delivers natural, accurate light with smooth brightness control.
