

# 720 Watt Commercial Ultra High Output LED Flood Light

**MODEL: AL-FL-HP-720**

## DESCRIPTION

aspectLED's flood lights use up to 80% less energy than halogen, metal halide or high pressure sodium lights and put out a much brighter, more even and more aesthetically pleasing light, available in a variety of color temperatures of white.

These ultra-high output flood lights are perfect for applications and jobs that require extreme amounts of light, such as industrial production, agricultural, logging, stadiums, or large construction job sites.

This 720 watt LED is one of the brightest flood lights on the market and is brighter than virtually all incandescent, halogen, xenon, or metal halide products.

Accepts a wide voltage range (100-277VAC). Also available in 347VAC and 480VAC versions.
