

MLV Dimmable Power Supply - 150 Watt

MODEL: AL-PS-W-150-MLV

DESCRIPTION

aspectLED offers a full line of dimmable LED power supplies (drivers). A high quality dimmable power supply results in your LED lights using less energy, shining brighter, and lasting longer. That's why aspectLED offers the highest quality dimmable LED power supplies. Our MLV power supplies can be used with a wide variety of Magnetic Low Voltage (MLV) dimmers. All of our power supplies are energy efficient and eco friendly.

Our power supplies feature flexible input voltage (90-135VAC) and come in 24VDC voltage output. Wattage displayed is the Maximum Wattage. These power supplies are rated to run at 80% continuous wattage.

This power supply is only for use with single color LED strip lighting. Never use any MLV dimmable power supply with recessed lights, color controllers, or any product other than strip lighting.
